About Me

I am a dedicated MERN Stack Developer with a strong foundation in MongoDB, Express.js, React, and Node.js. Through hands-on experience, I have built responsive and dynamic web applications, gaining a deep understanding of both front-end and back-end development. I enjoy solving real-world challenges with clean, efficient code and am excited to bring my enthusiasm and skills to innovative projects.

Projects

E-commerce Web App

MERN Stack App

Designed and developed a full-stack web application using React, Express.js, and MongoDB, featuring user authentication, product listings, and a shopping cart. [Live Demo](#)

Chat Application

MERN Stack App

Built a real-time chat platform using Node.js, MongoDB, and Socket.IO. Enabled users to send and receive instant messages, with features like user authentication and chat room creation for group conversations. Focused on delivering a responsive and smooth user experience. [Live Demo](#)

Education

2022

High School

At Govt Higher Secondary School in Silvassa, I excelled academically and participated in various extracurricular activities, developing leadership, teamwork, and time management skills.

2023 – 2026

SSR ACS College

**Bachelor of
Computer
Applications
(BCA)**

Pursuing a BCA with a focus on software development and web technologies. Actively involved in coding competitions and tech clubs, building strong problem-solving and teamwork skills to prepare for a career in tech.
